Please make sure that you open or import your template at 300dpi.

If your final product requires printing to the edge after trimming, you **must** extend your artwork to the **red** boundary box for proper bleed. Anything in the **red** shaded area will be trimmed off.

Your text should be 1/8" inside the **cut line** on each side, represented by the **blue** safety box.

Artwork that reaches the outline needs to extend to the edge of the **red line**.
